**Subject:** Support local jobs, clean up the PCB's at the east end of the Fremont Bridge before we have health issues related. Maybe it's already too late and many folks as well as the river are infected.

The EPA should think about small companies and families that will help foot a big bill for the river cleanup when many of them struggle.

Taking care of our environment is important. We can all agree to that. A clean river is good for all Oregonians. But please remember that jobs are good for Oregonians, too. We need a flexible cleanup that respects the role the harbor plays in our economy.

Please do what's right for the harbor workers and the families who depend on those jobs.

Sincerely,
